EDUCATION

2022 - PRESENT Ph.D. in Economics, **University of South Carolina**, USA (anticipated 2027)
2019 MA in Economics, **Delhi School of Economics, University of Delhi**,
India
2017 B.A. in Business Economics, **University of Delhi**, India

PHD COURSES

- Microeconomic Theory
- Macroeconomic Theory
- Introductory Econometrics
- Applied Econometrics
- Public Finance I
- Public Finance II
- Experimental Economics
- Health Economics
- Development Economics
- Economics of Education and Migration
- Computational Economics (Audited)

RESEARCH INTERESTS

Labor Economics, Technology, Public Policy, Applied Microeconomics

RESEARCH EXPERIENCE

- Research Assistant for Dr. Deniz Sanin (University of South Carolina) & Dr. Suzanna Khalifa (Science Po, Paris) (*Aug'24 to Dec'24*)
- Research Assistant for Dr. Sang Min Lee (University of South Carolina) (*Aug'23 to Dec'23*)
- Research Assistant for Dr. Natalia Cantet, & Dr. Brian Feld (University of South Carolina) & Dr. Mónica Hernández (EAFIT, Colombia) (*Aug'23 to Dec'23*)
- Research Associate for Prof. Pradeep K Chhibber (UC Berkeley) (*July'20 to July'21*)
- Research Consultant for Prof Chris Blattman (University of Chicago) (*July'19 to May'20*)

WORKING PAPERS

1. **Does Unionization Shield Routine Workers from Automation? Evidence from the China Import Shock**
This study examines whether unionization mitigated negative employment impacts among routine and non-routine workers.

- Utilized the Current Population Survey data and UN Comtrade bilateral trade data on China and the U.S. and employed an instrumental variable approach to carry out the analysis.
- The findings suggest that a 1% rise in imports per worker decreased employment likelihood by 0.002 pp, with a larger 0.0026 pp decline for routine jobs in Right-to-Work states (where unions are weaker), particularly affecting women. Earnings impact was insignificant.

2. Does Crime Affect Women's Labor Participation in Traditional Jobs? Evidence from India

This study evaluates the impact of crimes on women's labor participation in India using the IHDS and NCRB data. Key findings:

- Utilizes instrumental variable approach with exogenous variation from pending high court cases.
- A 1,000-unit increase in total IPC crimes reduces women's participation in traditional jobs by 1.32%, and hours worked by 161.7 hours/year.
- A 1,000-unit increase in crimes against women reduces participation by 8.05% and hours worked by 678 hours/year.

WORKS IN PROGRESS

- Worker-related incidents at firms and Robotization
- Rising College Tuition and Diversity in US Colleges (with Kara Jones)

SCHOLARSHIPS - AWARDS

2022 - 2027 Graduate Assistantship from Department of Economics, University of South Carolina
 2022 - 2026 Presidential Fellowship from the University of South Carolina

TEACHING EXPERIENCE

Teaching Assistant for the following courses:

- | | |
|-------------------------------|-------------------------------------|
| • Intermediate Microeconomics | • Applied Macroeconomics |
| • Game Theory | • Topics in Economics |
| • Microeconomic Theory II | |
| • Introduction to Economics | • Labor Economics and Labor Markets |

Instructor:

- MathCamp for incoming PhD students - Summer 2025, 2026
- Introduction to Economics (ECON 224) - Spring 2026
- Introduction to Economics (ECON 224) - Spring 2027

SEMINAR & CONFERENCE PRESENTATIONS

Feb, 2025 Department of Economics, University of South Carolina
 Apr, 2025 Presidential Fellows Seminar, University of South Carolina
 Nov, 2025 Southern Economic Association (SEA), Tampa, Florida, USA
 Apr, 2026 EPiC PhD Symposium, University of South Carolina

LANGUAGES

ENGLISH: Fluent
HINDI: Native

COMPUTER SKILLS

PROGRAMMING LANGUAGES: Python, R, Matlab, LATEX
SOFTWARES: Stata, MS Office.
VERSION CONTROL: Git, Github
